- **Webinar Theme:** Study Indiana: Where Opportunity Meets Hoosier Hospitality
- **Date & Time:** May 21, 2026 | 6:00 PM
- **Platform:** Zoom Webinar
- **Registration Link:** zoom.us [: https://us02web.zoom.us/webinar/register/WN_dfwU8a5SQoOr_W0TDpTW4A]

Event

This virtual session introduced university program students to educational options in Indiana, USA. Representatives from five distinct institutions highlighted affordable academic pathways, campus life, and career-oriented programs in a welcoming environment. The discussion offered practical advice on building balanced university lists, navigating tuition fees, and finding international scholarships.

Summary

Objectives

The session allowed university program students to connect with representatives from five prominent institutions in Indiana, USA. The primary goals were to help students explore affordable, career-focused academic pathways, learn about US scholarships and costs, and receive guidance on building a strong university application list.

Student Participation

Following the institutional guidelines, exactly thirty students from the university program who are aspiring to pursue higher education abroad were selected and assigned to attend this session. This specific cohort ensured active participation, filled the required engagement quota, and represented the institution effectively during the event.

Key Takeaways

- Attendees learned how to shortlist realistic and career-focused US colleges for further studies.
- The session provided clear explanations regarding actual education costs and institutional scholarship criteria.
- The selected student group participated dynamically, gaining valuable insights for their future academic pursuits abroad.

Post-Secondary Institutions

- 4,300 Post-Secondary institutions in the USA
- Designations
 - Community College - Offers 2-year degrees
 - Junior College - Offers 2-year degrees and some 4-year bachelors
 - College - Offers 4-year degrees, masters and possibly some PhD programs
