<u>Bridging Theory and Practice: Corporate Leader</u> Mr. Bibhor Jha Inspires Students on Modern Banking and Tech-Finance Integration

Date: June 25, 2026
Theme: BANKING SECTOR OF NEPAL AND CAREER OPPORTUNITIES / THE CODE OF CREDIT
Target Audience: Management (MGT) and Bachelor of Computer Science (BCS) Students

Guest Speaker: Mr.Bibhor Jha , Chief Directed Lending Officer at Sanima Bank Limited

About the Guest Speaker

The session featured Mr. Bibhor Jha, the Chief Directed Lending Officer at Sanima Bank Limited and an active member of the institution's core Management Committee (MANCOM). Mr. Jha brings an outstanding professional background of over 18 years in commercial banking, with deep domain expertise in treasury operations, corporate investments, and project financing. He presents a unique blend of multidisciplinary academic credentials, holding a bachelor's degree in electrical engineering alongside an MBA in Finance. Rising from a Management Trainee to Chief Financial Officer (CFO) within just 11 years, he currently directs high-impact regulatory credit units including energy, agriculture, tourism, and microfinance and serves as a Director on the Board of Sanima Capital Limited.

In line with our commitment to providing students with high-utility market exposure, our institution successfully hosted an Industry-Academia Interaction Session. The program initiated with an opening address by the Event Coordinator, Dr. Shipra Jha, who spoke on the vital role industry mentors play in transforming student mindsets. Following her remarks, the audience entered a comprehensive session focused on the changing dynamics of the modern corporate world.

Market Realities

Mr. Jha provided our business and technology cohorts with clear, first-hand insights into corporate operational frameworks. Under the theme "The Code of Credit," he detailed how commercial financial institutions balance profit metrics with central bank socioeconomic mandates like deprived sector loans.

Furthering the academic value of the session, our Academic Coordinator, Mr. Rajendra Lamichhane, shared his perspective with the attendees. He stressed that understanding these interconnected tech-finance ecosystems is crucial for contemporary skill acquisition, challenging students to actively match their learning with shifting corporate trends.

A key highlight of the program was the speaker’s profound commitment to student mentorship. Despite of managing tight corporate timelines, Mr. Jha dedicated extra time to answer every technical and professional question raised by our student delegates.

Institutional Vision and Leadership Guidance

During the concluding phase of the event, Assistant Campus Chief Dr. Hari Singh KC addressed the gathering to share his institutional insights. Dr. K.C emphasized that strategic collaborations with top-tier banking systems are foundational to enhancing graduate employability. He noted that merging executive corporate strategies with standard academic programs underpins our campus's educational strategy. Dr. KC also extended his gratitude to the speaker for translating complex commercial banking metrics into highly digestible lessons for both business and tech students.

Core Technical and Professional Outcomes

- **For Management (MGT) Students:**
  - Acquired direct insight into credit evaluation, risk mitigation, and the management of large-scale commercial loan portfolios.
  - Discovered diverse, high-growth employment tracks across corporate financing, asset management, and treasury operations.
  - Evaluated how regulatory central bank structures shape business strategies and national development.
- **For Computer Science (BCS) Students:**
  - Analyzed the growing reliance of banking systems on software solutions, specifically regarding algorithmic risk management and credit scoring engines.
  - Identified expanding career roles for tech specialists within data security architectures, predictive analytics, and fintech innovations.
  - Realized how automated data structures directly influence financial decisions and minimize institutional risk.

The session successfully wrapped up with a formal vote of thanks, followed by an institutional group photograph with our guest speaker, organizers, and student leaders.
