Message from Chairperson

Southwestern State College (SWSC) is a vibrant learning community committed to creating the best possible academic environment for world-class education with a difference. Realizing the necessity to meet the needs of the challenging globalization, we have been continuously working to incorporate 21st-century learning standards and implement them for the better future of our students. We are, therefore, confident that our sincere efforts for providing quality education will surely help our students overcome any challenges both at national and international level.

Every parent aspires to provide quality education to their children, and this is the demand of modern students too. Keeping this in mind, we provide our students with a holistic learning experience for life. We aim at equipping them with skills and

vision rather than being only engaged in the college curriculum. In other words, we help them learn to travel beyond the boundary of mere course books. We realize that the future is abstract and unknown but the youth in our hands are real and can be molded. Hence, our endeavors are aimed to craft and build our youth for the future. We believe that we don't have to be great to start, but we have to start to be great.

Let's join hands together to materialize this vision.

Best Wishes,

Er. Basudev Bista

Message from Campus Chief

Southwestern State College (SWSC), run by a team of national and international academic leaders in the field of education, is one of the leading educational institutions in Nepal. Our tradition of excellence to groom all the facets of students' life and career has been substantiated by the accomplishment of our students in national and international academia and job markets. Our faculties are focused on helping every student achieve their goals in every single step; personally and academically. At SWSC, we, along with our faculty members, are passionate about grooming our students not only as professionals but also as good human beings with morals, values, and ethics. We prepare our students to be lifelong learners who pursue every hardship to achieve their dreams.

We have adopted student-centered learning approach with a sincere commitment to excellence in teaching,

research, and social activities. Our teaching and learning modules prioritize group discussions, personality development, presentation skills, and life skills for career development. We encourage our students to take challenging courses and equip them with enough skills to face a competitive global society. After the completion of the academic course from SWSC, the students become able to undertake important responsibilities in the national and international sphere and secure a good future.

We feel proud to say that the alumni of SWSC are leading Nepalese companies, corporate houses, and pursuing higher studies in renowned universities abroad.

I look forward to welcoming you at SWSC.

Wish you all the best.
